Description

A large country house inspired footstool. Upholstered in striped wool. Raised on turned beech and reeded legs and casters. The legs are detachable so can be changed for a different style or colour if you wish.These footstools make great coffee tables and often our clients mention this when ordering. A tray would be required for use as a coffee table. We also offer a bespoke service so please feel free to reach us via the 'Enquire' button and simply let us know the required size you'd like and we can help let you know how many meters you'll require. Meterage varies depending on if the fabric is plain or has a repeat pattern. The legs are interchangeable so if you don't like the ones in the images or there not right for your interior then we can help with that too and we work with a local wood turner so we can have legs turned to a design you may have previously seen. All our footstools are made in house and and come with a CRIB 5 interlinear barrier cloth directly below the fineish top fabric.
