A 19th century Howard style open armchair in original floral fabric

Howard & Sons

Sold

Description

A very attractive low slung deep seated country house armchair in the manner of Howard & Sons.
Upholstered in its original deep buttoned floral fabric.

Structurally in good solid order and very comfortable. The fabric is a little tired but in my opinion still has life left in it and it would be a shame to lose it.

If however you do wish to change it then I do offer upholstery on all my upholstered seating.
