A giant vintage kilim upholstered footstool

Sold

REF: 1767

Description

A huge kilim rug upholstered footstool. Great looking thing, the rug is vintage and has at some point around 20-30 years ago been made into a footstool. Please view the images carefully as there are a few marks and in places the rug weave is loose however this does not effect its use. It's definitely a statement piece and I recommend you have a good size room to fit it in!
