Large country house tufted footstool

Sold

Description

A large country house inspired footstool now available. Hand made by us using traditional materials. The frame made from thick cut sapele and the tufted cushioned top hand stuffed with lush double scoured wool, both locally sourced here in west Yorkshire. The legs are hand turned locally from Brazilian mahogany and are raised on 19th century large brass casters. The fabric has again been locally sourced and is a hard wearing tapestry fabric.

We do also offer a bespoke service should want a specific size and fabric of your choice.

150cm wide
80cm deep
47cm high
