Pierre Vandel side tables

Sold

REF: 1857

Description

A pair of 1970's Pierre Vandel side tables or lamp tables, very nice designer pieces and they look fantastic with the contrasting black and gold.

In good vintage condition with expected wear such as a few minor scratches and chips to the black painted aluminium frame. The glass top does show signs of wear with a few light scratches here and there. Please note one of the corners to the glass is chipped as shown in the photos, this fits in the frame so is safe to use once the glass is in place.

Price is for the pair.
