

DESIRED EFFECT ANTIQUES

19th century cutlers stool

Sold

Description

A 19th century cutlers stool. The ring turned legs are we specific to Sheffield where the cutlery industry was huge due to its output of steel. It appears the stool has had a leg replaced which does seem to be period and I think it shows that this stool has had a hard life, however it still stands firm.

A good tall example

57cm wide
60cm deep
62cm high
