19th century Holland & Sons style armchair

Sold

Description

A very attractive mid 19th century armchair raised on rosewood legs and the original brass Cope & Collinson casters and retaining its original horse hair squab cushion. Unstamped but likely by Holland & Sons. c1840

Structurally in good solid condition and just requiring upholstery.

One front caster has seized and has tarnished so would benefit from being replaced or refinished.

As with all my upholstered seating I do offer upholstery should you wish.
