Country house armchair from Dutton manor Lancashire

Sold

REF: 1032

Description

A large English deep seated country house armchair from Dutton manor Lancashire. Upholstered in its original vibrant printed cotton. This chair has been loved and does show its age with various nicks to the fabric and old repairs. I have made a seat cushion for the person that loves this chair for what it is and can live with its flaws. Its also exceptionally comfortable.

It would be sad to loose the fabric buy I do offer upholstery should you wish to freshen it up.
