

## DESIRED EFFECT ANTIQUES

Victorian country house button back arm chair

Sold

## Description

A late Victorian arm chair with button back sitting on mahogany turned front legs with original ceramic castors. Upholstered in teal dralon, there is slight wear in places but it's more than presentable. The chair is very comfortable as it retains its original fillings and coil sprung seat.

We do offer an upholstery service if you like the chair but would prefer your own choice of fabric. Please get in touch for a quote prior to purchase if this is a service you wish to use!
