

DESIRED EFFECT ANTIQUES

Georgian oak chest of drawers

Sold

Description

A large scale Georgian solid oak chest raised on bracket feet and with nicely turned ebonised hard wood drawer pulls. From a country house estate in Dundee Scotland. They have been fully restored both inside and out and are in very good solid condition.

The back panels and a couple of the drawer backs have had worm at some point. This has long since gone, but I think its important a buyer knows. they have been treated for piece of mind and it doesn't effect the structure.

142cm high
106cm wide
51cm deep
