

DESIRED EFFECT ANTIQUES

Swedish painted pine dresser

Sold

Description

A rather well proportioned Swedish pine dresser consisting of two large shelved compartments separated by an open central shelf above two drawers. Painted in a faux maple grain covering the entirety of the shapely exterior.

A good solid piece with expected wear such as chips and cracks to the paint. It comes with the original keys but top cupboard lock is not working.

There are a few holes here and there on the back and on a few of the shelves from historical worm however we have treated it all the same!

110cm wide
60cm deep
233cm high
